

NEYTECH

JFF 2000 Furnace

Ideal for wax burnout, enameling and heat treating.

- Lightweight, one-piece molded heating chamber
- Heats to 1000°F (538°C) in 15 minutes; Max. operating temp. 2012°F (1100°C)
- Large chamber, 9"W x 6.5"H x 9"D
- Simple dial power control

SPECIFICATION	
Control Type	Power analog
Chamber Dimensions : width depth height	230mm (9") 230mm (9") 170mm (6.5")
Chamber Size	526 cu.in.
Cabinet Dimensions : width depth height (door open) height (closed open)	390mm (15.5") 390mm (15.5") 420mm (16.5") 420mm (16.5")
Maximum Operating Temperature	1100°C 2012°F
Power Consumption Watts	1500w
Watts to Maintain 1000C	1050
Net Weight	13 kg (29 lbs)
